

Data Sharing Policy

Adopted July 16, 2002

Project SHARE provides GIS data to stakeholders who share our mission statement, and to our membership. The data we provide is intended only for the restoration of riparian and instream habitat, with a focus on restoration of Maine's wild Atlantic salmon habitat areas.

Management, manipulation, analyses of GIS data provided by Project SHARE is the sole responsibility of the recipient.

SHARE is not liable for any damage that may be caused by the use of any GIS data we provide.

Certain datasets may come with additional requirements/agreements/conditions that may limit the use or distribution of data to third parties. The recipient must agree to any and all terms outlined by the copyrights or terms indicated by the owner(s).

Datasets distributed by SHARE may not be used as evidence in a court of law nor be used as a tool for any enforcement actions of any kind.

Any violation of these terms will void this agreement and terminate stakeholder's access to data in Project SHARE's possession.

Application

I, the undersigned, agree to the terms outlined in this policy and agree to adhere to these terms and conditions.
